

Panic Threatens

Currently among investments concentrated on long-life natural gas with low financial and management risk, **Cross Timbers Royalty Trust** ranks most undervalued followed by **San Juan Basin Royalty Trust**, **Hugoton Royalty Trust** and **Dorchester Hugoton, Ltd.** (see table). Weighing the week's changes in prices of oil, natural gas and money, our calculated asset values increase 4% and our projected distributions for the next year increase 11%. Addressing the National Association of Petroleum Investment Analysts in San Antonio on Friday, October 13, investment banker Matt Simmons warned that the heating oil situation in the Northeast this coming winter will be the worst energy crisis we have ever faced. Whether or not Matt overstates the case, to be forewarned is to be forearmed.

		<i>Price</i> (\$/unit)		<i>Market</i>		<i>Net</i> <i>Present</i>	
		<i>13-Oct</i>	<i>Units</i>	<i>Cap</i>	<i>Debt</i>	<i>Value</i>	<i>McDep</i>

San Juan Basin Royalty Trust	SJT	12.50	2.28	3.06	18.2	24.5

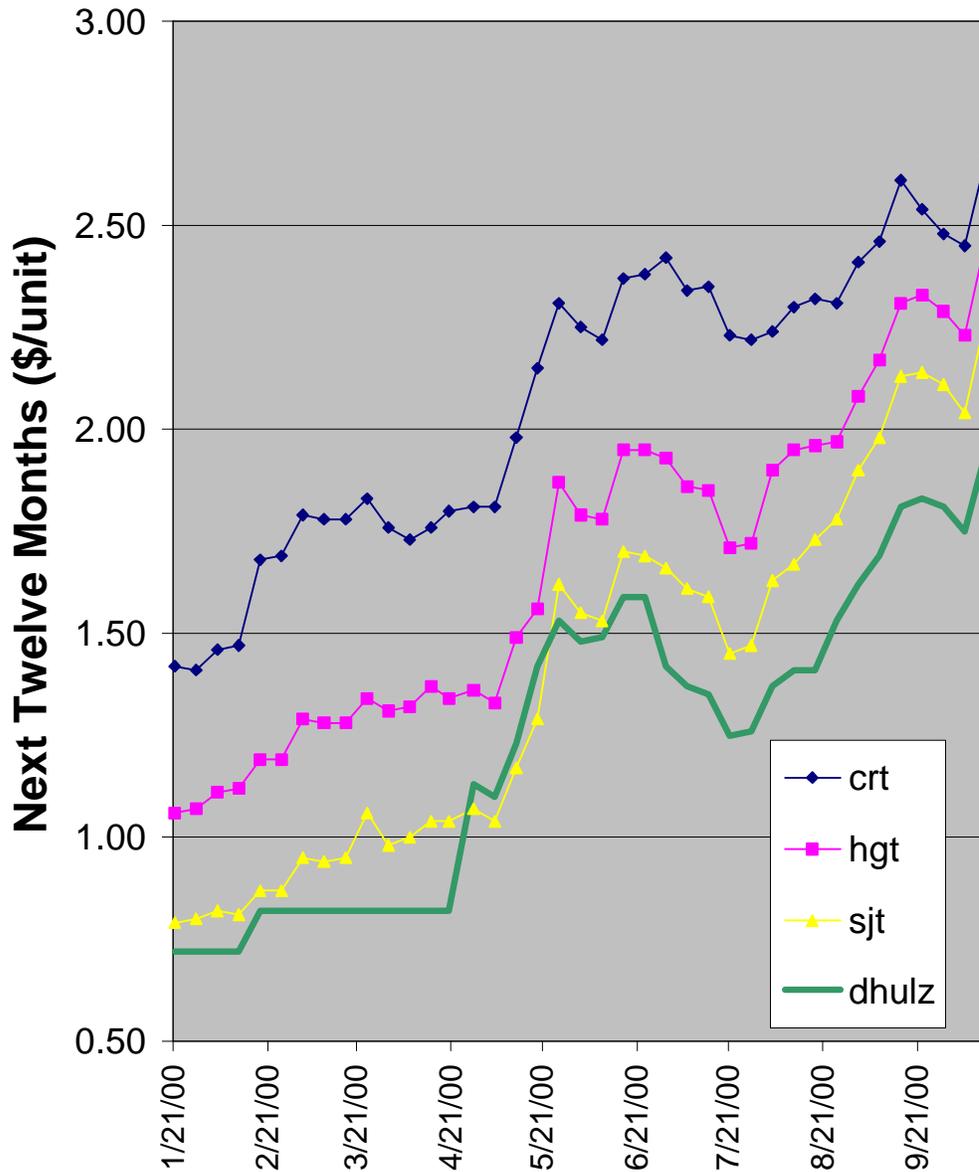

By analogy with 1973, 1979 and 1990 we can next expect military action in the Middle East followed by a recession in the rest of the world. Let's hope cooler heads prevail and that we make a soft landing to a sustained higher level of energy prices that rewards producers and supports economic growth.

The tables that follow present details of the latest present value and distribution estimates for each of the three royalty trusts and the one partnership.

Note: The trust was formed on December 1, 1998. Also there is a two month lag between actual and reported production.
As a result, the first year of operations includes only eleven months of actual production from December 1998 through October 1999.
